A LITTLE MORE INFORMATION ABOUT THE CHESS SETS...

Each of the sets include 32 pieces, with the exception of the Tournament Range, which comes with an extra queen in each colour. All sets are supplied in card boxes. The white pieces of all sets are made from boxwood. As natural materials vary in shade and grain, the set you receive may differ slightly in appearance. Ebony is a mature, robust wood which is black in colour. Striped Ebony has flecks of rich brown graining showing through the Ebony black. Rosewood is a reddish brown wood, with a pronounced grain. Sheesham is a very natural coloured wood, medium brown with some graining, although not as pronounced as Rosewood. Antiqued Brown or Black indicates that the pieces are made of boxwood, with the black chessmen being stained to achieve the desired effect. We also stock a range of boxes to store your pieces in - see page 8.

THE ENGLISH CHESS COMPANY® COMBATANT STAUNTON CHESSMEN

registration number 293228

The craftsmen have combined traditional and contemporary elements into a unique and beautiful set. The knight's mane and head collar are the most stunning features, intricately hand carved while the other pieces have a more rounded edge. £ 299

THE ENGLISH CHESS COMPANY® ALEXANDRE 1860 CHESSMEN

registration number 293229

These exquisite chessmen are hand carved by master artisans and crafted out of the highest grade Bud Rosewood and Boxwood. The design is based on one that was popular in the late 19th century. The pieces, especially the Knight, have a sleek, stylish look and a comfortable feel. £ 299

THE ENGLISH CHESS COMPANY® ELITE STAUNTON CHESSMEN

registration number 293230

A luxury wooden set hand carved to the highest standards. Note the intricate design of the King's crown and the exquisite Knight's head and mane. The carving of all the major pieces is astonishingly detailed, for example the Bishop's mitre is deep set and the Queen's coronet finely carved to produce an angular effect. £ 299

THE ENGLISH CHESS COMPANY® IMPERIAL STAUNTON CHESSMEN

registration number 293227

A truly majestic set. The Knight has a unique design with downward sloping head, weaved mane, flared nostrils and icy stare make it the most spectacular chess piece in the English Chess Company collection. The other pieces are also beautifully sculpted with distinctive bands below the summit. £ 299

THE ENGLISH CHESS COMPANY® ANTIQUED WARRIOR CHESSMEN

registration number 293286

The term "Antiqued" describes the process applied to the boxwood pieces resulting in the appearance of an aged set, preferred by many collectors and serious chess players alike. There is something about the patina of the set that is most appealing to the eye. The dark pieces are constructed using only the finest jet black Ebony. £ 399

The Biasov, Integra and Fidel tables below are made to order by the manufacturer. Examples of each table are on display at our retail shop. Tables are shipped direct from the manufacturer in Europe to customers in the UK at a cost of £50. Overseas customers please contact us for a quote.

Chess Table: Biasov £549

This beautiful chess table is made of Wenge and natural wood veneer, finished with a water-resistant lacquer. Ornate carvings feature around all four sides of the table (see inset picture). The chessboard is made from Wenge/Maple. Featuring the same multi-functionality as the FIDEL table (see photo below left), in just a few seconds the chess board can be flipped over to reveal a plain table top. The innovative construction of the table legs allow it to be used at 3 different heights. The table also features a drawer to store a tournament-sized chess set and chess clock.

Dimensions: 88 x 88 x 76cm
Weight of table: 26 kg

Games Table: Integra £749

Dimensions:
93 x 93 x 76cm
Weight of table: 32 kg

Chess Table: Fidel £249

Dimensions: 88 x 88 x 72cm
Weight of table: 14 kg

Made from Wenge and natural wood veneer, this table offers superb value for money. Assembly of the table does not require tools as the legs are easily unscrewed. Table top is reversible (pictured left) allowing it to be used for other purposes when a game is not in progress. Note this table can only be used at one height.

Made from Cherry Wood this is the ultimate all-in-one games table, allowing you to play Chess, Backgammon, Draughts (both 8x8 and 10x10), card games (on a high quality baize), Ludo and Nine Man Morris. Preparing the table for any game takes a few seconds thanks to the innovative design that allows the lid of the table to be lifted up and the central game board to either be flipped or changed (see photo above right). Accessories for all the above games (chess pieces, counters, dice etc) are included in the price. The innovative construction of the table legs allow it to be used at 3 different heights (see photo above centre). Additional game boards (such as Scrabble or Go) can be purchased separately - please contact us for further details.

Jaques & Novelty Chess Sets

Jaques Original Fischer - Spassky Chessmen - 3.5" king £499

A beautifully hand-crafted set selected by the players for use in the "Match of the Century" between Bobby Fischer and Boris Spassky in 1972. It is made from the finest Boxwood and is presented in a Mahogany baize-lined box that is fitted with brass hinges and lock. *Board not included.*

Jaques 1850 Original Staunton Sets *(pictured above)*

Limited edition, with 250 of the 4.4" and 500 4" sets only. Finely detailed Ebony and Boxwood sets, these men are a reintroduction of a design produced by John Jaques between 1850 and 1851. The pieces are very heavily weighted and finished with rich English leather bases with beautiful gold block Jaques branding. The chest supplied is made from a superb polished mahogany, and comes complete with fitted trays, a miniature brass lock and numbered signed 'Original Staunton' certificate. Both of the 1850 sets come with a beautiful handmade inlaid wooden chess board, specially made for this set.

To mark Her Majesty The Queen's Diamond Jubilee in 2012 SAC has produced the official commemorative chess set. It features expertly sculpted pieces, marked with The Queen's Cypher, of The Queen and The Duke Of Edinburgh in their Garter Ceremony robes. The bishop is the Dean of Windsor and the rook is the Round Tower at Windsor Castle. The knight is based on the Military Knights of Windsor and the pawns are represented as choristers.

Traditional Chess Clocks

Analogue clocks are the traditional method used to time chess matches and have remained more or less unchanged since their introduction over 120 years ago. With their combination of simplicity, accuracy and old-world charm it is easy to see why they remain popular with chess players around the globe. Batteries are not needed (except with the Master Quartz Timer) as analogue timers are powered by a wind-up mechanism! Pressing the button down on your side stops your clock and starts that of your opponent. A flag will fall at the exact moment a player's time has expired. However, they are less accurate than digital timers and are unable to implement advanced time controls such as increment and time delay.

ECONOMY RANGE

The ideal way to get your club up and running at the lowest cost. The timers are robust enough for use in schools.

ECONOMY PLASTIC TIMER
£19.95 each £17.50 each if 5+

Wind-up mechanism. Dimensions: 16 x 8 x 4.5cm

MASTER QUARTZ TIMER

£24.95 each £20 each if 5+

Uses 1 x AA battery (included). Perfect for schools as there will be no over-winding problems. Dimensions: 17.5 x 11.5 x 6.5cm

THE TURNIER RANGE All our Turnier clocks have the same reliable precision mechanisms and come with a 1-year guarantee. Each clock is distinguished by its casing, varying from the durable Standard Turnier, to the elegant wooden clocks. Discounts are available when buying quantities of 5 or more. Dimensions: 15 x 8 x 3cm.

Also available:

LIGHT WOOD TURNIER
£59.95 each £54 each if 5+

GARDE CLOCK

£59.95 each £50 each if 5+

This is the finest analogue chess clock available. Its robust casing and reliable German mechanism have such a good reputation that it was used in the Kasparov - Short World Championship match in 1993. Dimensions: 22 x 12 x 6cm

GARDE DIGITAL CLOCK

£89.95 each £79.95 each if 5+

Solid, wooden framed digital clock by the best name in the business. The LCD display is the largest of any clock on the market, making it popular with spectators and arbiters alike. To improve visibility for the players the angle of the display is tilted back 10 degrees. The clock is supplied ready for use with batteries which allow up to 2,000 hours of playing time. It has a low battery warning, 'game end' display, a buzzer and a move counter. Dimensions: 22 x 12 x 6cm.

Digital Chess Clocks

If accuracy is what you need then look no further than our broad range of Digital Chess Timers. All our digital clocks are accurate to within a second per hour and with the most extensive selection in the UK we're sure to have something to suit you. Digital chess clocks have the advantage over the traditional analogue clock as they are able to handle a wider range of time controls such as time delay and increment. Digital clocks are perfect for serious matches at clubs and tournaments or for the casual game at home. However, they really show their worth in blitz games and time-scrambles, where knowing exactly how much time you have remaining can make all the difference! As they don't function on a wind-up system like analogue clocks they need batteries, although a set of 2 AA batteries can last an incredible eight years (based on a usage of 4 hours per week).

ROMAN'S LAB DVDs

Roman Dzindzichashvili is a double US Chess Champion (1983, 1989) and one of the most popular and prolific chess video authors in the world. His opening DVDs are packed with original repertoires designed with club and tournament players in mind. His endgame training is second to none. Roman has produced 100 DVDs covering all aspects of the game.

WHY YOU SHOULD BUY A ROMAN DVD:

- Roman has trained some of the best players in the world including Karpov, Kamsky, Korchnoi and Kasparov.
- Learning from Kasparov's and Karpov's trainer ensures you'll be taught the most important knowledge in chess.
- Having it all on DVD means you can go directly to the topics you want and review them as often as you like.
- Seeing it on your TV or computer screen means you'll remember much more than you would from just reading a book.

Chess DVDs from Ginger GM

Killer Dutch (DVD) - Simon Williams - £19.99

Running time: 6.5 hours!!

GM Simon Williams, the world's leading exponent of the Classical Dutch, introduces his debut DVD where the viewer explores the spectrum of exciting opportunities that Black will enjoy when playing this opening. With a running time of over 6 hours, this innovative chess tutorial DVD is serious value for money.

Killer French (DVD) - Simon Williams -

£19.99 per volume £35 for Vols 1 and 2

Running time: 5 hours per volume

Simon guides you through the French Defence from Black's point of view. Simon's frank, clear, understandable delivery and extensive knowledge certainly aids the viewer in increasing their understanding of these opening lines.

Volume 1 covers the Advance Variation and Tarrasch Variation.

Volume 2 covers The Winawer Variation, Exchange variation, King's Indian Attack and any other possibilities.

Simon's first DVD has been internationally acclaimed as setting new standards in DVD production for his clear approach to delivering sometimes complex material. Chapters are broken up through chess-related montages maintaining a viewing interest from start to finish. This feature is a standalone product running on all platforms and requiring no additional software.

Killer Endgames (DVD) - Nick Pert - £24.95 per volume £45 for Volumes 1 and 2

Running time: 5 hours per volume

Chess players have a tendency to focus mainly on improving their opening play but one must not forget that many games are actually decided in the endgame. Ginger GM has released two new endgame DVDs that will enhance a player's performance in this particular area of the game. Using his wealth of knowledge and expertise, Grandmaster Nick Pert presents a series of lessons, categorised according to rating, that are designed to familiarise players with endgame theory. Puzzles are included at the end of each chapter to test what has been learnt.

Volume 1: Beginner to Intermediate (0 to 1800 Elo)

Volume 2: Intermediate to Advanced (1800 to 2400 Elo)

Killer Grand Prix (DVD) - Gawain Jones - £24.95

Running time: 5.5 hours

Gawain Jones takes a comprehensive look at the white side of The Grand Prix Attack. Packed with exciting and instructional games, this DVD is a must for any player wishing to be inspired by some of the world's best attacking players. Follow Gawain as he systematically explains the ideas and principles behind this increasingly popular and aggressive opening.

Killer Dragon (DVD) - Simon Williams -

£24.95 per volume £45 for Volumes 1 and 2

Running time: over 6 hours per volume

The first DVD in this two-part series focuses mainly on the sharpest lines of the Dragon Variation, namely the Yugoslav Attack. However, alternative lines are also given for those players wishing to shy away from the reams of theory associated with this opening. The second DVD in this two-part series focuses on the Dragadorf variation where never seen before ideas are presented. The classical lines of the Dragon are also explored.

Killer c3 Sicilian (DVD) - Sam Collins - £19.95

Running time: 4.5 hours

Over the years, the c3 Sicilian, otherwise known as the Alapin variation, has become increasingly popular not least because it avoids the reams of theory associated with Open Sicilians, but also because it offers White flexibility. Indeed, the positions that arise from this opening can be either tactical or positional and are therefore suitable for chess players of all styles and strengths. Follow International Master and former Irish Champion Sam Collins as he explains the fundamental principles and ideas behind this fascinating opening.

Play Like Tal (DVD) - Simon Williams - £24.95

Running time: over 8 hours on 2 DVDs!

**** THE FIRST EVER INTERACTIVE CHESS DVD ****

Simon Williams presents some of Tal's best games during which the viewer will be prompted at critical moments of the game to work out Tal's next move – a first for any chess DVD! Packed full of key facts and historic photographs, the DVD is a must for any chess fan wishing to learn about one of the best tacticians of all time. Improve your play by following Simon's advice as he systematically explains the ideas behind Tal's moves and who knows, perhaps in the future, you too could *Play Like Tal!*

Garry Kasparov: My Story

Presented by Garry Kasparov & GM James Plaskett

Part 1: Teenage Prodigy (104 mins) £19.95
By age 12 Garry was the youngest ever Junior Champion of the USSR. Back then fashion bowed to the safety-first style of reigning world champion, Karpov. Kasparov's style - brash, energetic and aggressive took the chess world by storm and became the standard for future generations of chess players.

Part 2: Joining the Elite (113 mins) £19.95
By 1981, though still a tender 18 years of age, his ferocious talent demanded that he clear ever-higher hurdles. Now it was time to take on the grown-ups, and for him this meant one thing - the world elite.

Part 3: Rebels and Renegades (86 mins) £19.95
A close look at Kasparov's career reveals a remarkable amount of brinkmanship. At a time when the Soviet Union was wired with paranoia and the winds of political change were beginning to stir, the brash Kasparov manoeuvred to be in the right place at the right time to capitalise on the new climate.

Part Four: Hitting the Wall (110 mins) £19.95
The shadows of political intrigue would threaten to do what no chess player could manage - to eliminate Garry from the hunt for the World title. And when the long awaited confrontation between Karpov and Kasparov arrived, it turned out to be the most remarkable and controversial match ever played.

Part Five: Rite of Passage (89 mins) £19.95
On the eve of the most important game he would ever play, Kasparov sought the advice of legends Botvinnik and Tal. If Kasparov succeeded, he would take Tal's place as the youngest World Champion in history.

Fritz 13 is now even stronger and faster than before, whilst retaining the same cool features – plus many enhancements – that have made it the most sought-after chess software for players of all strengths and abilities.

Whether you are a beginner, club player or professional – *Fritz* has everything you could want including: automatically adjusting playing strength, coaching functions, explanation of positions, game analysis and a database of over 1.5 million games! Used by the world's greatest players, including Garry Kasparov redesigned *Fritz* interface gives you instant access to all the most important functions. This means more comfort and clearer controls. Never before has it been so easy and fast to play with Fritz.

"Let's Check" is the revolutionary new feature of Fritz 13. With it users can join a worldwide community that will put together a giant knowledge base for

chess. Whenever you analyse a position to any meaningful depth Fritz 13 will, if you allow it, send the main line and evaluation to a central server, to be shared by all participating users. Soon you will be able to find deep analysis to almost every position you look at – instantly, pre-generated by the finest engines in the world, running on the most powerful machines around. Gone are the days of waiting hours for Fritz to reach substantial enough depth in order to test an opening novelty. "Let's Check" keeps updating the evaluations to any given position with newer, deeper analysis as it becomes available. Using powerful machines and the latest engines allows you to "conquer" positions, with your name attached to the newest, deepest analysis. You can also add comments to your analysis, which other users will see when they encounter the position. Even if you are not a great openings expert you can become one using "Let's Check". The entire body of modern openings theory is built into the system, and "Let's Check" provides you instantly with the latest statistics of any position in the opening: how often it occurs, which moves were played and with what success. The openings book (LiveBook) is updated on a weekly basis and will show you which variations are currently topical and how good they are.

Naturally Fritz 13 continues to offer chess players everything they need to study and train: professional board graphics, engine management, adjustable playing strength, coach functions, move explanation, automatic game analysis and commentary, training modules for openings, tactics and endgames, professional printing of games and diagrams, a database of 1.5 million games and hours of Fritz Media video samples. And the icing on the cake: six months free premium membership to the world's largest chess server: Playchess.com. Premium Membership to *Playchess* enables you to listen to audio commentary during major events, receive live training, play in simultaneous exhibitions against top GMs, watch the TV ChessBase shows and play in leagues and tournaments. *Internet connection required.*

A Short Overview of new features in Fritz 13:

- Revolutionary new "Let's Check" facility.
- Improved and enhanced database management.
- Improved user interface in Windows Office 2010 standard.
- New, more powerful Fritz engine, especially tuned for deep analysis.
- An up-to-date openings book and database with over 1.5 million games.
- Six month premium subscription to the *Playchess* server.

DEEP FRITZ 13 (for multi-core PCs is due out in April 2012) £TBA

According to Chessbase the minimum is: Pentium III 1 GHz, 512 MB RAM, Windows 7/Vista or XP (with Service Pack 3 installed), DVD-ROM drive The recommended set-up is: PC Intel Core 2 Duo, 2.4 GHz, 3 GB RAM, Windows Vista or Windows 7, DVD-ROM drive. **Please note an internet connection is required to complete the installation of this product.**

RYBKA 4 (PC-DVD) £44.95

Rybka 4 is the world's strongest chess program having won the 2008 World Computer Championship and leading all ranking lists by over 100 elo points, but strength is not everything! Today the main use of chess software is analysis and Rybka's analysis features coupled with its awesome playing strength make it the number one choice for the serious chess player. Using an earlier version of the Fritz interface Rybka introduces several ground-breaking new analysis features:

Monte Carlo Analysis yields precise evaluations by playing thousands of ultra-fast games in a few minutes from any given position. This is much like using game result statistics, something human players do when choosing their opening variations. *Monte Carlo Analysis* can be used in any position, but generally it's most useful in endgames and positions with sacrificial possibilities. Engines often give high scores to drawn endgames,

Monte Carlo recognises fortresses and other no-progress situations, giving a much more accurate assessment of a position than other engines. It is also useful in positions where one side has made a material sacrifice for slow compensation (i.e. not just for combinative reasons). **Sampled Search** gives information about the search process, showing scores and alternative variations from the main line. This is helpful when the program searches for a long time in one position, allowing the user to see how the engine is thinking and making its decisions. Singular Moves are annotated graphically. This indicates situations where only one clearly best move exists. **Look For Win** is used whenever you feel that there should be a forced win in a position you can explicitly ask for it. Rybka then searches for a decisive move, considerably faster than in normal analysis. **Persistent Hash** Rybka can save its hash tables between analysis sessions to preserve valuable information already accumulated in the search tree.

DEEP RYBKA 4 £89.95 (PC-DVD) is the multiprocessor version of Rybka 4. The program will run on a PC which has multiple processors/multiple cores, harnessing the machine's additional hardware to speed up the program's chess calculation. Running on an Intel Core 2 duo system, Deep Rybka 4 will calculate at roughly twice the rate of a single-processor system. This is particularly useful when analysing a large numbers of positions, researching new moves in an opening variation, or analysing a single position in detail with a number of candidate moves. Deep Rybka is at least 50 points stronger than its single-processor counterpart running on the same hardware.

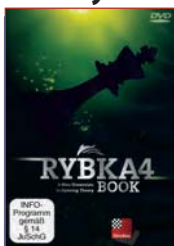

Fritz Powerbooks 2011 (DVD) £44.95

Fritz Powerbooks can be used by both Fritz and Rybka and is designed to enhance their opening repertoire or to study opening lines from. Contains over 30 million opening positions, derived from over 1.5 million quality games. The source games are also included so you can see how the games continued from any position! Discover new lines to revamp your repertoire and then practice them against your Chess program.

Rybka Book (CD) £24.95

The same format as the *Powerbooks* (see left), *Rybka Book* was developed to maximise Rybka's playing strength. The choice of opening lines has been matched to the style of the program. The value of the book lies in its original analysis and move choices, which has led to a re-evaluation of certain lines in modern theory, all of which have never been published before.

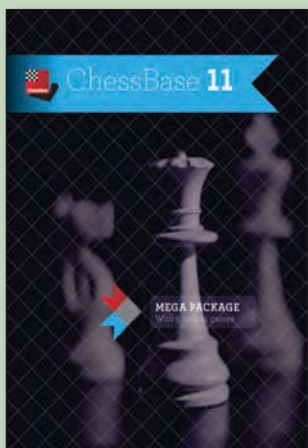

Endgame Turbo 3 (DVD) £44.95

Consists of 9 DVDs of endgame databases allowing your chess program to play all five-piece and most six-piece endgames perfectly. Likewise, it will handle endgames with more than six pieces much better since the program can access this endgame knowledge during its analysis. A must-have for correspondence players, endgame theoreticians and fans of engine matches.

TURBO FRITZ £114.85 (RRP £134.85) - turbo charge your Fritz with Powerbooks 2011 and Endgame Turbo 3

UNLIKE MANY OTHER COMPANIES WE OFFER FULL TECHNICAL SUPPORT ON ALL THE PRODUCTS WE SELL
INFO@CHESS.CO.UK

ChessBase 11 now has a completely new interface which strongly resembles the new ribbon design favoured by Windows 7 and the latest version of Microsoft Office

System requirements (Minimum): Pentium III 1 GHz, 512 MB RAM, Windows 7/Vista, XP (SP3), DirectX9 Graphics card with 256 MB RAM, DVD-ROM drive, Windows-Media Player 9 and internet connection to activate access to the online database and updates.

- Create a repertoire database, which allows Chessbase to show you any games in a database which involve an opening variation that you play!
- Download all the latest GM games **free of charge** in a single click. Weekly installments of *The Week in Chess* contain approximately 2,000 games keeping your reference database up-to-date.

New in ChessBase 11

- **Fashionable variation** - shows you which move is currently fashionable in the position on the board. Frequently, it's not the the one which has been played the most often!
- **"What if?" moves.** Hold down the mouse button and ChessBase shows you by means of an arrow the best reply.
- ChessBase now places the latest games between the strongest players at the top of the games list so you don't waste time by looking at outdated theory or amateur games.
- Now when you prepare for a specific opponent, you can see at a glance what openings they play and when they modified their repertoire.
- Generation of e-books for Amazon Kindle and Sony.
- On playchess.com the last 40 games of a player can be downloaded as a database.
- Single click publishing of games on the Internet, even without your own web site.
- Games can be played through directly in the main window via an embedded board without having to open a separate window.
- Improved interface for "training questions".

Learning Chess: A step-by-step guide

This step-by-step method was developed in 1987 by renowned chess trainer Cor van Wijgerden to teach children to play chess. Literally thousands of schools and chess clubs in Holland, Belgium, Germany, Switzerland and Austria use his material for their chess lessons. His method consists of 6 steps. Each step is accompanied with an instruction book with the teaching material to be used by the teacher or parent and a workbook with exercises for the students. The manual is a great support for the teacher. Ready made lessons, hints on how to use the workbooks, how to give assistance, and more.

Workbook for Students £7.99 each (6 volumes available)

Manual for Teachers £12.99 each (6 volumes available)

See website or call us for quantity discounts on these titles

NEW Stepping Stones 1 & 2 £7.99 each (2 volumes available)

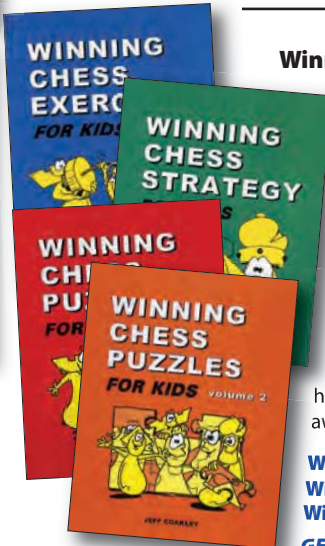

Although the Step-by-Step method can be used by younger children it is not ideal since it was developed for ages 9 and upward. This new series for children is aimed at children from the ages of 6 to 9 and adapts the material from the first two steps to this younger age group.

The award-winning

Winning Chess Strategy for Kids £18.95

This wonderfully entertaining book also happens to be quite effective. Everything any child will need to know about chess strategy and more is here in this book, which is well laid out and easy to follow. Part of the fun factor for kids is that the book is replete with cartoons to help make the learning experience more exciting. The large workbook format and algebraic notation make this a book which will occupy your child's attention for many hours. The flexible binding makes it easy to turn the pages and have them stay in place. Also available in this award-winning series:

Chess Book Recommendations *for the Improving Player*

Understanding Chess: Move by Move

John Nunn **£14.99**

Using 30 carefully selected games, this jargon-free guide teaches modern chess principles. The examples are taken from recent play and show how key ideas are handled by the GM's. To guide the reader through each stage of the game, the thirty examples are grouped separately into opening, middle and endgame themes.

Books by Jeremy Silman IM Jeremy Silman is a world-class teacher, writer and player who has won the American Open, the National Open and the U.S. Open. In this series of five books, aimed at the intermediate level player, he tackles the strategies and tactics that will transform the way you play and analyse a game. The material is split into bite-size chunks with test exercises to reinforce what is being taught.

Amateur's Mind **£14.99** **Complete Book of Chess Strategy** **£15.99**
How to Reassess Your Chess **£23.99** **Reassess Your Chess Workbook** **£15.99**

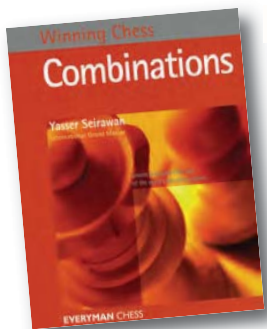

Silman's Complete Endgame Course **£19.99** If you find the endgame a mystery or are searching for an instructive book that will turn your weakest link into your key strength then the search is over. Silman's Complete Endgame Course is the answer with essential ideas and standard techniques comprehensively explained.

THE 'WINNING CHESS' SERIES

Grandmaster Yasser Seirawan has a knack for communicating not only the playing of the game, but also an enthusiasm for it. In this seven part series covering all elements of chess, Seirawan talks to the social chess player. He explains the game's development and basics of play, sharing stories of some of the wild and wonderful characters from chess history and Seirawan's own experiences. The language is simple and devoid of technical jargon making it accessible to all players aged twelve years and upward. **Available in the series:**

Winning Chess Openings £14.99, Winning Chess Strategies £14.99,
Winning Chess Tactics £14.99, Winning Chess Brilliances £14.99,
Winning Chess Combinations £14.99, Winning Chess Endings £14.99

How to Play Chess Endgames

Karsten Muller **£18.99**

Using hundreds of outstanding examples the authors explain not only how to play common endgames but also techniques such as exploiting an extra pawn or activating pieces. All varieties of endgames are covered and there are 250 exercises with full solutions.

Garry Kasparov on My Great Predecessors

The battle for the World Chess Championship has witnessed numerous titanic struggles which have engaged the interest not only of chess enthusiasts but also of the public at large. The chessboard is the ultimate mental battleground and the world champions themselves are supreme intellectual gladiators. This award-winning series is the definitive history of the World Chess Champions. Kasparov's biographies place them in a fascinating historical and political context. Kasparov explains how each champion brought his own distinctive style to the chessboard and enriched the theory of the game with new ideas.

Part One covers the careers of Wilhelm Steinitz, Emanuel Lasker, Jose Capablanca and Alexander Alekhine. **£25 unsigned, £35 signed**

Part Two covers the careers of champions Max Euwe, Mikhail Botvinnik, Vasily Smyslov and Mikhail Tal. **£25 unsigned, £35 signed**

Part Three looks at the reign of Tigran Petrosian and Boris Spassky, as well as examining their chief rivals. **£25 unsigned, £35 signed**

Part Four was possibly the most anticipated chess book of all time: Garry Kasparov on Bobby Fischer. **£25 unsigned, £35 signed**

Part Five looks at the post-Fischer era, a period dominated by Anatoly Karpov and his perennial challenger, Viktor Korchnoi. **£30 unsigned, £40 signed**

Garry Kasparov on Garry Kasparov

Part One: 1973-1985 - The first book in a major three-volume series in which Kasparov reflects on his own career and greatest games. This series starts with the emergence of a major new chess star from Baku and ends with Kasparov's first clash with reigning world champion Anatoly Karpov (which is covered separately in *Kasparov on Modern Chess Part 2*) **£30 unsigned, £40 signed**

Chess Exam & Training Guide

Igor Khmel'nitsky

Volume 1 **£16.99**

Volume 2 **£14.99**

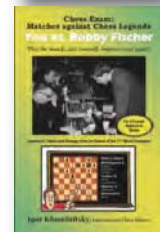

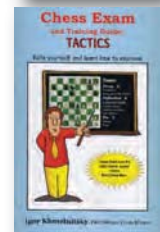

Volume 3 **£5**

Would you like to know how good your chess is? Whether you are a beginner player or a weathered master, these books will help you evaluate your current level, identify your weaknesses and offer training advice.

Vol. 1 Covers all middlegame themes. Features 100 diagrams + 200 questions.

Vol. 2 Focuses on tactics. Features 60 diagrams, 120 questions and 30 rating reports.

Vol. 3 Focuses on examples from Bobby Fischer's games and can be studied without a board. In each example you take the place of Fischer's opponent and are asked to come up with an assessment and a move. Based on your response you are assigned points towards your rating evaluation and a game score towards your "match." Once finished, you will learn how well you have done in the "match," have an estimate of your rating, and know what you need to work on to improve your game. **GET ALL 3 VOLUMES FOR £30!!**

**Fighting the French
Denis Yevseev £18.99**

GM Yevseev suggests a new method for combating the French Defence. White plays 2 d4 d5 3 Nd2 and then he plays Ngf3, Bd3, c3, 0-0, against almost any Black reply. This usually leads to exchanges in the centre and the appearance of an isolated queen's pawn for White. .

**King's Indian: Complete Black Repertoire
Victor Bologan £22.99**

Written by world-renowned GM Victor Bologan, this is a rare achievement: a chess book that is just as relevant to amateurs as it is to the strongest players. It reveals in the author's own words "the true spirit of the King's Indian Defence – to uncover for you its secrets and to show you its typical resources." This is more than just an instructive manual.

The Move by Move series

This is a new series which provides an ideal platform to study chess openings. By continually challenging the reader to answer questions throughout the book, *Move by Move* greatly encourages the learning and practising of vital skills just as much as the traditional assimilation of opening knowledge. Carefully selected questions and answers are designed to keep you actively involved, and allow you

to monitor your progress as you learn.

GAMBIT**1001 Deadly Checkmates**

John Nunn £15.99

By focusing exclusively on positions from real games, ranging from junior events to grandmaster encounters, Nunn ensures that the mates featured are those which arise most often in real life. He also highlights themes and ideas that are often missed in practice. While solving these puzzles, your 'mental library' of patterns will grow, leading to an immediate increase in your playing strength. All 1001 puzzle positions have been carefully checked, and are graded by theme and difficulty. Points are awarded for finding the checkmate, so you can measure your skill. Most of the puzzles are suitable for junior and improving players.

Nunn's Chess Endings John Nunn

Volume 1 (320 pages) £17.99

Pawn, Queen, Minor-piece endgames

Volume 2 (320 pages) £17.99

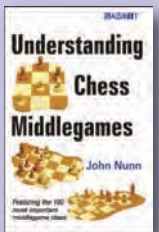

Rook endgames

In this two volume work, renowned endgame theoretician John Nunn teaches the skills essential for success in practical endgames. Going beyond standard texts, Nunn shows how to apply knowledge of standard endgames to find the right methods in tricky real-life practical situations - even when they differ greatly from the idealised forms given by traditional endgame manuals.

Understanding Chess Middlegames

John Nunn £15.99

Following on from his successful *Understanding Chess Endgames*, John Nunn turns his attention to the middlegame - the phase in chess where most games are decided, yet the one that has received the least systematic treatment from chess writers. With the outstanding clarity for which he is famous, Nunn breaks down the middlegame into 100 bite-sized lessons. Each lesson features two inspiring examples from modern chess. Both sides' ideas are emphasised, so we get a clear picture of the ways to disrupt typical plans as well as how to form them.

New York 1927

Alexander Alekhine £14.99

Alekhine's controversial masterpiece finally in English! For decades, Alekhine's account of the New York tournament was at the top of a list of chess books that had never been translated into English. Not only do you have one of the greatest annotators of all time rendering some brilliant analysis, but he melds it with an exceptional agenda, an anti-Capablanca agenda. And since he wrote it after defeating Capablanca in their marathon match, he sounds like a sore loser who became a sore winner.

Endgame: Bobby Fischer's Remarkable Rise and Fall
Frank Brady £17.99

Endgame is acclaimed biographer Frank Brady's decades-in-the-making tracing of the meteoric ascent—and confounding descent—of enigmatic genius Bobby Fischer. Only Brady, who met Fischer when the prodigy was only 10 and shared with him some of his most dramatic triumphs, could have written this book, which has much to say about the nature of American celebrity and the distorting effects of fame. Drawing from Fischer family archives, recently released FBI files, and Bobby's own emails, this account is unique in chronicling all of Fischer's life and playing career.

Koltanowski Phoenix Attack
The Future of the c3 Colle
David Rudel £15.99

In his earlier book for Colle Players, *The Moment of Zuke*, David Rudel wrote that the main line of the c3-Colle was a dead end for White. He proposed a new idea, meeting 1.d4 d5 2.Nf3 Nf6 3.e3 e6 4.Nbd2 c5 5.c3 Nc6 6.Bd3 Bd6 7.O-O O-O with 8.dxc5 Bxc5 9.b4!, a line he dubbed the Koltanowski-Phoenix Attack. Rudel promised to write a treatise on this new idea, and—two years later—he has delivered. This new title gives extensive coverage of all critical defenses. Yet its presentation allows a player to begin using the Koltanowski-Phoenix almost immediately.
